By this credit card authorization I hereby give my complete approval to charge my credit card in full for all specific services and products which I have directly or indirectly ordered and authorized on this account, written or verbal, current and in the future. This authorization is to include any and all credit cards that I or my company authorizes to be processed for payment on services or products under this account. Such charges may appear on my credit card statement on the date of my order or at a later date as determined by Wedge Supply, LLC. I understand that if I cancel my account in writing, Wedge Supply, LLC will cease charging this credit card.

Card Holder Signature: \_\_\_\_\_

The card security code is a special code feature of your credit card to provide added security for your transaction. It is a 3 or 4 digit number which is not part of your credit card number. It appears only on your credit card and provides some assurance the card is in your possession. MasterCard® has the code in the last 3 digits of the number printed on the back of the card in the signature field (see example below on the left). American Express® has 4 digits printed on the front of the credit card on the right or left side above the imprinted card number (see example below on the right).

See the security code on the sample cards.
